

# Good Reasons to Choose the Type 3241 Valve

SAMSON

## Type 3241

SAMSON develops and manufactures control valves to meet all requirements. We offer the full range of high-quality and state-of-the-art control equipment for industrial processes.

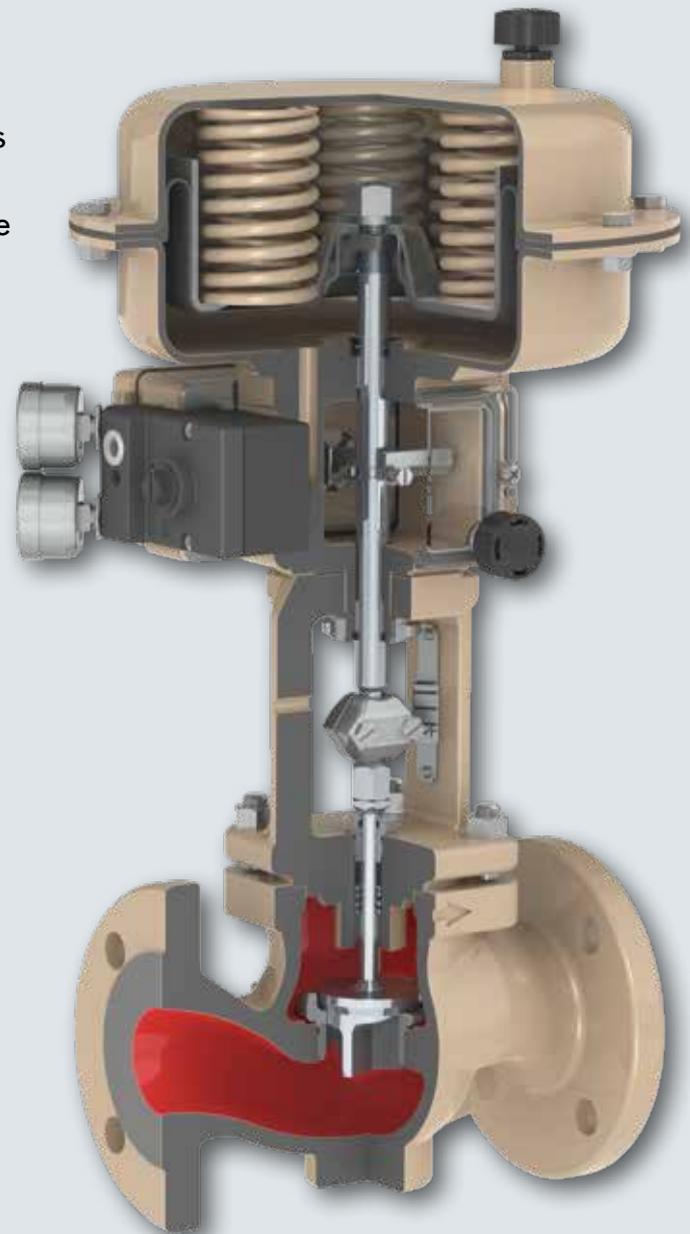

SMART IN FLOW CONTROL

# Type 3241

SAMSON

- Actuator sizes ranging from 120 to 2800 cm<sup>2</sup>
- Integral attachment of digital or analog positioners as well as limit switches with solenoid valves
- Completely housed mechanical valve travel linkage
- Actuator together with positioner can be rotated by 360°
- Separate bonnet allows the actuator to be exchanged without the need to open the valve
- Bonnet and body made of the same material
- Stem seal monitoring for better controllability
- TA-Luft packing (ISO 15848)
- Optional insulating section or bellows seal
- Low-lying guide bushing guarantees stable guidance
- Up to 15 K<sub>vs</sub> coefficients available in steps of 1.6 for each valve size
- Optimal trim to suit special applications
- Optional with RFID tags with unique identification according to DIN SPEC 91406
