

# Cage Valve for Severe Service

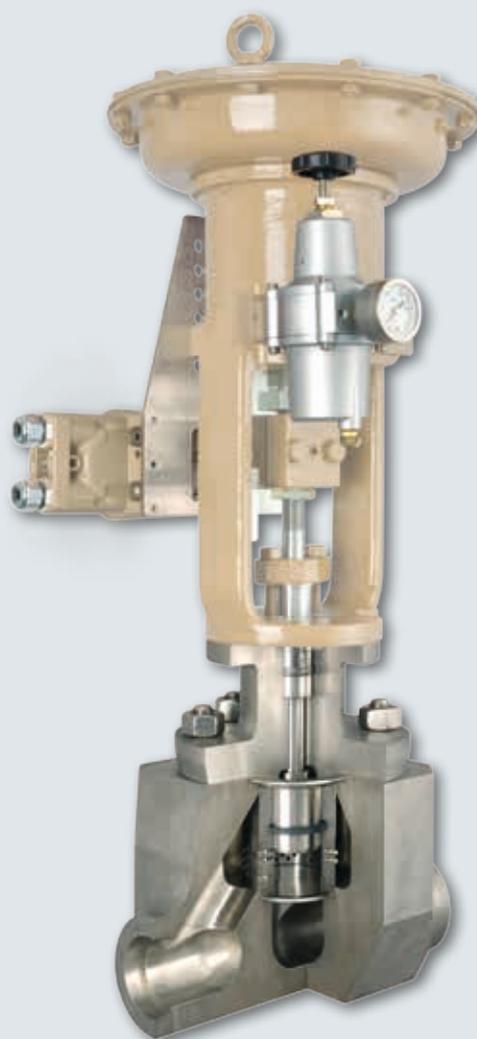

## Type 3595 Cage Valve

- Available with globe-style and angle-style bodies
- Robust design thanks to the piston guided through the entire travel range
- Optional trims for liquids and gases to reduce noise and wear
- Minimum distance between piston and cage minimizes vibrations

# Cage Valve for Severe Service

<b>Valve size</b>	NPS ¾ to 32
<b>Pressure rating</b>	Class 150 to 2500
<b>Temperatures</b>	Up to 1292 °F Up to 700 °C
<b>Materials</b>	A216 WCC, A217 WC6, A351 CF8M (Other materials on request)
<b>Type of connection</b>	Flanges: all ANSI versions Welding ends according to ANSI B16.25
<b>Leakage class</b>	IV, V and VI (depending on version)
<b>Characteristic</b>	Equal percentage, linear or quick opening
